

Now Hiring!

Siegmund Excavation has open positions for full-time equipment operators.

The successful candidate will be operating shovel, processor, or buncher. Work will include processing 40-80 year old Douglas Fir and other minor species in clear-cuts and various Road Right-of-Way projects.

Past operating experience is valuable but not necessary. Candidates who have experience hand-bucking for grade and scale will also be considered.

Machine maintenance, Oil/Filter changes and chain sharpening is completed by Company mechanics. The operator is responsible for minor daily maintenance and machine inspections. Bulk fuel is generally available on each jobsite. Work is generally 5 days per week with 8-10 hour shifts however Saturdays or longer shifts may be necessary in some circumstances.

A positive attitude toward safety and safe operations will be critical for this position, including knowledge of "chain-shot" and the potential hazard that can pose to operators and/or bystanders.
